**ITINERARY**

Following is the planned itinerary. Please keep in mind that the days on this journey will unfold as they will. Ceremonies, meditations, sharing circles will happen as they are needed. We have learned to expect and welcome surprises on these pilgrimages. Each day we set the scene and allow magic to happen.

*B=Breakfast, L=Lunch, D=Dinner*

Fri. Mar 4: **Arrive in Cancun**  
Arrive anytime on the 4<sup>th</sup> and transfer to the nearby hotel. No meals or events are planned for this day since people will be arriving at different times, some late at night. Your hosts will be at the hotel to greet you.  
*Overnight Cancun, Quintana Roo*

Sat Mar 5: **Ek Balam and Cenote Xcanché (B)**  
We will have an introduction circle this morning so everyone can meet, followed by breakfast together at the hotel. We then set out on our first step of our journey.  
**Ek Balam** is the Ceremonial Center where you travel in time and space using the symbol of the Balam – Jaguar. Here, the Maya Masters developed their spiritual wings to travel to other dimensions, connecting with the future and bringing back through time and space the Prophecies for the time in which we now live. Time is a spiral in constant movement, where the past, the present, and the future come together as one in Ek Balam. The Prophets from the Stars, the Teachers of the New Era, are returning now to provide the teachings to all human beings who can open their minds and hearts to receive them.

After our visit to the ceremonial site we will travel the short distance to the **Cenote Xcanché**. Cenotes are natural wells, sacred to the Maya, and often found next to important Maya cities. Here you can enter the refreshing water to wash away any stress remaining from your travels. There is a small restaurant where you can get some lunch and after the swim we will head out to the beautiful Spanish Colonial City of Valladolid.

After checking into your hotel you can stroll around the main square, relax in the hotel, or do some shopping in the little markets nearby. Dinner is on your own tonight. *Overnight Valladolid, Yucatán*

Sun Mar 6:

### **Chichen Itza (B & L)**

Chichen Itza has more than 2,000 Temples and Pyramids within the total geographic area of the site. It has two magnificent cenotes and its principle jewel is the Pyramid dedicated to KuKuulKaan. This Pyramid is “a Universal Solar Calendar” which, through the effects of the Sun and Shadow, is able to track the five movements of our Planet in relation to the sun, namely: 2 Equinoxes, 2 Solstices, and the Zenith of the Sun.

Each Temple and Pyramid in Chichen Itza is a Library in Stone. Each contains the wisdom of the Universe. Chichen Itza is a Library in Stone where the secrets of the Cosmos await you.

We will begin with a ceremony at the Sacred Feminine Cenote. Miguel Angel will then guide us to some of the major pyramids and temples following which there will be some free time to explore on your own and do your private meditations.

Lunch will be at the lovely Mayaland Hotel which is right next to the site. When we are ready, we transfer to Mérida, which will be your home for at least the next three nights.

*Overnight Mérida, Yucatan*

Mon Mar 7:

### **Oxkintok and Ceremony in Cave (B & L)**

This is an incredible site which has not yet found its way onto the path of the general tourist. Often we are the only ones there which will be a welcome relief after the crowds of Chichen Itza. The name Oxkintok means “the place where three suns burn”, and its philosophical etymology leads us to believe that the name is associated with our Sun in the Solar System, the Sun of Alcyone in the Pleiades Constellation, and the Sun Sirius in the center of our Galaxy. In this very special site you find three stone statues of Galactic Masters who came from the cosmos to deliver teachings on mathematics, philosophy, and astronomy.

There is a labyrinth called in Mayan, “tza-zun-tzat”. According to oral traditions, the Maya Masters considered this place to be a portal open to the magic of other dimensions. There is also a Maya Arch at this site, situated astrologically with the setting of the Sun on the spring and autumn Equinoxes.

Many of the important Maya sites were associated with nearby caves which were used by the Maya for ceremony and initiations. We will go to a special one we know, not far from Oxkintok, to do a ceremony connecting with IxMukane, the Heart of the Earth. *Overnight Mérida, Yucatan*

Tue Mar 8:

### **Uxmal B & L**

UXMAL is “The Maya Feminine Cosmic University” has some of the most beautiful temples and pyramids in all Mesoamerica. Here the Priestesses received the knowledge from the Master Teachers and received the title: “IX KUKUULKAAN” which translated means: “Women of the Cosmic Knowledge” These learned Priestesses transmitted their knowledge to many generations in this Ceremonial Center which is dedicated to the Eternal Feminine, to Ix’Cheel, Mother of the Earth, and IxMukane, Heart of the Earth. Uxmal was a Sacred Enclosure where the Feminine became eternal

with the Masculine and the Masculine came into balance and harmony with the Feminine. It is a very beautiful city, enchanted by "Aluxes", the kindly spirits of Mother Nature. Uxmal awaits you with its cosmic beauty and its magic.

Following our visit to this very important site we will go to a special place to perform a Fire Ceremony honoring Ix Zuhuy Kaak. Maya Goddess who initiated the Priestesses into the Circle of Fire at Uxmal.

*Overnight Mérida, Yucatan*

Wed Mar 9: **Xocen (B & L)**

Xocen will be a surprise for any of you who have not been here before. It is more of a modern Maya sanctuary than an ancient site. Here you will experience how the Maya people today keep their traditions alive. With their permission we will perform a ceremony here which will be a closing for those who are with us on the one-week option.

We then go together to a wonderful Hacienda near Valladolid where we can close this part of the journey with a swim in a cenote and a farewell lunch.

**Those who have to leave will be transferred to the hotel near the Cancun airport in preparation for their flight home tomorrow. Those who are staying for the full program will return to Mérida.**

*o/n Cancun or Mérida*

Thur Mar 10: **Ake (B)**

This is another out of the way site that holds a lot of magic. Today we will do a ceremony here focusing on the Crystal Skulls.

Maya legends tell us that Ake was founded by Itzamna, the great Master Teacher who brought the wisdom from Atlantis to the Maya. After founding Izamal he then built Ake. The tall columns on the temple invoke memories of Atlantis and everyone who visits this site recognizes its connection with this earlier great civilization. We expect our visit here, with the help of the Crystal Skulls, will bring into consciousness the memories of Atlantis that need to surface and be dealt with at this time.

*Overnight Mérida, Yucatan*

Fri Mar 11 **Mayapan (B & L)**

Mayapan Ceremonial Center is where the great teacher, KuKuulKaana, spent his final years teaching the Maya his knowledge of the Cosmos, constellations, solar system, equinoxes and solstices. He built a pyramid dedicated to the Sun, to the Solar Logos. Every year on December 21 at sunset the sun projects on the north staircase a figure in light and shadow that appears as the descent of the Serpent to the Earth.

KuKuulKaana symbolizes our own inner energy called: Kundalini and the Serpent of Light that appears on the 21<sup>st</sup> of December resembles a small sun in the Northern Hemisphere, that is going to be reborn on the 21<sup>st</sup> of March, the Spring Equinox. KuKuulKaana taught the Maya how to elevate their consciousness by using the energy of the Heart of the Sky and the Heart of the Earth. He told them that they have an

Inner Sun...it is an Inner Generator that relates to the cosmic movements that come from the Sky.

KuKuulKaan promised to return again in the time when Humankind is prepared to once again take its place on the Cosmic Stage with the Father and Mother of the Sky and Earth. That time is now. We are here today at Mayapan to take our place on this Cosmic Stage.

*Overnight Mérida, Yucatan*

Sat Mar 12 **Izamal and transfer to Cancun (B & L)**

For our final day together on this journey we will visit the beautiful city of Izamal. Founded by the great teacher, Itzamna, it has its roots in Atlantis. Today we can clearly see three levels of Mexico history in one unique place: ancient Maya pyramids, Spanish Colonial buildings, and the current vibrant culture of today's Mexico represented by the people living here. Izamal is full of surprises and the perfect place to close our magical journey.

We will have our farewell lunch here in Izamal and then transfer to Cancun for the night.
