

## *The Greater Dimensions Of Spirituality*

**By Royal Satterlee, D.D., D.R.S.**

This book reports the discovery of the Greater Spiritual Dimensions, which are correlates to the greater physical dimensions being discovered by subatomic physics. It describes how through meditation, Spiritual Affirmations, and letting go of all blame and shame, anyone can enter dimensions of high consciousness, those greater than the third dimension, such as the fifth and the sixth, giving access to the healing of perceived problems. When we do this, we release all judgment of ourselves and others, and let go of guilt and shame. No matter what our errors may have been God holds nothing against us. This enables us to think like God thinks, and is the channel through which God's ideas of our being healed takes place. Dr. Royal Satterlee is a master teacher of spirituality and the author of several books exploring metaphysical truths, including *The Bible Teaches the Evolution of Spiritual Consciousness*, *Second Reflections*, *Meeting the LoveFriend*, and *The Greater Dimensions of Spirituality*. He involves himself daily with significant healings and transformations.
